

HASP & STAPLE SR3

High security surface fixed external pad-lockable device is compatible with variants of the MICO Single and Multipoint panic escape hardware. The unique design offers panic escape at all times while secured from the external side with a pad-lock. Manufactured in full 316 stainless steel as standard. Tested and approved to LPS 1175 SR3 on selected door-sets.

The MICO Panic Hasp and Staple range is compatible with a wide range of padlocks from leading manufacturers such as Abloy, Kaba and Squire.

Hasp & Staple SR3

OPERATION

Entry Method: Removal of the padlock allows users to gain entry by lifting up the hasp and turning it clockwise or anti-clockwise to retract the internal shoot bolt of the MICO Panic escape system.

Exit Method: Even when the MICO Hasp and Staple is pad locked, the MICO internal hardware still allows for Panic Escape at all times.

APPLICATIONS

Suitable for areas where rapid escape in event of an emergency is required. These include Utilities such as water, power, gas, telecommunications, data centres, banks, hospitals and high value retail outlets.

OPTIONS

Compatible with a wide range of padlocks from Abloy, Kaba and Squire.

[illegible]

The diagram shows two scenarios for placing the 'ATTACK SIDE' relative to an 'EXIT'.

- Left Scenario (Correct):** The 'EXIT' is indicated by a green arrow pointing upwards. To the left of the exit is the 'R/H OUTWARD OPENING' (Right Hand Outward Opening), and to the right is the 'L/H OUTWARD OPENING' (Left Hand Outward Opening). The 'ATTACK SIDE' is labeled above the diagram.
- Right Scenario (Incorrect):** The 'EXIT' is indicated by a green arrow pointing upwards. To the left of the exit is the 'R/H INWARD OPENING' (Right Hand Inward Opening), and to the right is the 'L/H INWARD OPENING' (Left Hand Inward Opening). The 'ATTACK SIDE' is labeled above the diagram.
